PROJECTS

Poker Game, *Java*

February 2022 - September 2022

- Developed a Poker Application in IntelliJ that assembles a poker tournament with a range of opponents.
- Devised algorithms to determine the chronological win order based off strength of poker hands as well as accurately distribute chips in complex win scenarios.
- Users are able to play until they are out of chips and get eliminated or the user wins the tournament.

Personal Website, *HTML/CSS, Bootstrap*

February 2022 - September 2022

- Designed a website to present current information and showcase current projects.
- Features multiple sections including welcome, about, portfolio, resume, and links for contact.
- Utilizes a GitHub pages domain and incorporates a desktop as well as a mobile layout.

LEADERSHIP EXPERIENCE

Wrestling Team, *Team Captain*, Peachtree City, GA

September 2020 – February 2021

- Captained the 15 person Starr's Mill wrestling team and raised motivation by showing persistence and tenacity to grow as a team and win second place in our area competition, qualifying the team to compete at the state level.
- Lifted the spirit of the team while pushing through rigorous activities, for example: harsh conditioning after a long practice or a beatdown against a reputable team.
- Used experience to teach newer members the basics and key points of wrestling and develop their foundation.

WORK & RELEVANT EXPERIENCE

Association for Computing Machinery, *Member*, Athens, GA

August 2022 - Present

- Gather weekly to explore and learn the vast world of computing and computer science.
- Meet with guest speakers from big companies around the country such as Google & NCR that present an aspect of computer science and their use of it.

Computer Science Interview Preparation, *Member*, Athens, GA

August 2022 - Present

- Participate in a weekly workshop designed to enhance understanding on the topics of data structures/algorithm, soft/social skills and resume work to prepare computer science majors for the interview process for software-related positions.
- Learn and practice Leetcode problems once a week to better understand the process of creating solutions.

Sake Mama, *Bartender*, Athens, GA

August 2022 - Present

- Collaborate with a team of 10-12 people to serve 1000+ customers daily and accommodate customers.
- Always ensure the cleanliness and sanitation of the establishment by immediately disposing of mishaps or accidents.
- Provide positive guest experiences and develop friendly relationships with customers, increasing the customer return rate by 10%.

Green Ginger, *Server*, Peachtree City, GA

May 2021 – August 2022

- Worked with a team of 4-6 people to efficiently provide 500+ customers with quality service.
- Developed a strong knowledge for the menu to analyze customer needs and preferences to make appropriate food and beverage recommendations.
- Frequently assisted colleagues during rush periods which promoted teamwork while providing quality customer care, reduced stress in the work environment, and reduced customer wait times by 20%.
